Course Description (from registrar)

3 credit hours - Polymer manufacturing processes and biochemical/biophysical behavior are considered from the perspective of achieving those properties needed for the engineering of polymeric implants and devices. Unique economic, ethical and regulatory issues are also presented.

Course Pre-Requisites / Co-Requisites

EMA3066 – Introduction to Organic Materials

Course Objectives

This course will provide an overview of polymeric biomaterials used in the design of medical devices, and to augment or replace soft and hard tissues. Discussion will include the manufacturing, applications, and in vivo behavior of different classes of natural and synthetic biomaterials. Analysis of the regulatory process as well as failure analysis of implantable polymeric biomaterials/devices. Finally, evaluations of relevant case studies will be conducted.

Attendance Policy, Class Expectations, and Make-Up Policy

[Lecture attendance is required.](#) Attendance for student lectures and grant proposal discussion is mandatory. Experience has shown that those who attend lectures earn higher grades in the course. Arrival on time is expected. Please turn off all cell phones upon entering class. Reading of newspapers, work on assignments for this or other classes, or other activities that are not part of the class are not allowed during lecture. Students who do not comply with these requirements or who behave disorderly or disrespectfully may be asked to leave the classroom. Make up exams will be provided only with the **approval of the instructor in accordance with university policies.** Excused absences are consistent with university policies in the undergraduate catalog (<https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>) and require appropriate

documentation. In general, acceptable reasons for excused absence from an exam include illness, serious family emergencies, special curricular requirements, military obligation, court-imposed legal obligations, and religious holidays. In all cases, you will be required to provide written documentation, and obtain instructor approval. You will not be excused from any exam without following the policy above, with no exceptions. Students not in attendance for the scheduled exam will receive a score of zero. Make-up exams for excused absences as well as exam conflicts must occur within 1 week of the missed exam and may occur before the missed exam.
