

Course Syllabus

EMA 3010 Materials

Class #: 13543

Section: 5823

Course periods: T: 10:40 - 11:20; Th: 10:40 - 12:30

Location: Weil 0270

Academic term: Spring 2017

Instructor:

Michael Tonks

michael.tonks@ufl.edu

158 Rhines Hall

(352) 846-3779

TA:

Jacob Hirschhorn

jacob.hirschhorn@ufl.edu

267 Rhines Hall

(352) 846-3766

Office hours: M, W, F 9:00 - 10:00

Office hours: T, Th 1:00 - 2:30

Course Description

This course provides a conceptual perspective for origin of materials behavior, including structure, property, performance interrelationships. Materials selection and use of familiar materials in electronics, structural and other engineering applications is also discussed, including metals, ceramics, polymers, electronic materials, and composites.

Course Pre-Requisites

CHM 2045

Course Objectives

Students completing this course should be able to understand the fundamental concepts of materials science and engineering, describe the structure, properties, and applications of metallic, ceramic, polymeric and composite materials, and understand structure-property-performance interrelationships.

Anticipated Outcomes:

- Ability to apply knowledge of mathematics, science, and engineering to materials systems
- Ability to identify, formulate, and solve engineering problems

Required Textbooks and Software

Textbook

Fundamentals of Materials Science and Engineering: An Integrated Approach, 4th Edition (**with Wiley Plus Access**)

Author: William D. Callister, Jr. and David G. Rethwisch

Publisher: Wiley, ISBN: 9781119035640

Course Policies

Attendance Policy

Each class period will be used for course lectures and the working of example problems. Attendance will be a critical aspect of learning the material, as the lectures will not be recorded. However, attendance will not be taken.

Class Demeanor

Students are expected to arrive to class on time and be respectful to the instructor and to fellow students. Please avoid the use of cell phones and conversations that do not contribute to the discussion should be held at minimum.

Course Communication

E-Learning will be the primary avenue for communication and course management. All announcements for the course will be made using the announcement system on the E-Learning site. Discussion groups will be made for each module. All questions regarding the module and the homework assignment should be made using the discussion group. Course notes will be posted on E-Learning before each lecture.

Homework

Homework problems for each module will be assigned using WileyPlus, and will be submitted, and graded using WileyPlus through the E-Learning web site. Homework can be turned in up to three days late with a 15% reduction in your grade.

Quizzes

Quizzes will be given through e-Learning, one in each module. You will have 10 minutes to take each quiz, and they will be open book, open note, and open internet. The lowest quiz grade will be dropped.

Exams

You will be given three exams throughout the semester, the exam content may change but the dates will not. **There will be no final exam.** Each exam is weighted equally and will be worth 20% of your final grade.

Make-up exams will be provided only with the prior approval of the instructor or excused absence. In general, acceptable reasons for excused absence include illness, serious family emergencies, special curricular requirements, military obligation, court-imposed legal obligations, religious holidays and participation in official university activities such as music performances, athletic competition or debate.

Calculators: Only scientific and non-graphing calculators will be permitted during exams. The permitted calculators are NCEES (National Council of Examiners for Engineering and Surveying) approved, and include the following:

- Hewlett Packard- HP 33s and HP 35s
- Casio – fx-115 ES, fx-115 MS, fx-115 MS Plus, fx-115 MS SR
- Texas Instruments – TI-30Xa, TI-30Xa SOLAR, TI-30Xa SE, TI-30XS Multiview, TI-30X
- IIB, TI-30X IIS, TI-36X II, and TI-36X SOLAR, TI 36X Pro

If you are unsure about your calculator, it is your responsibility to check with the instructor for approval. Calculators will not be provided if you forget or bring the wrong calculator.

Grade Appeal

Your homework will be graded automatically by Wileyplus. If you feel there is a problem with a homework grade, contact Dr. Tonks. For questions on exams, also contact Dr. Tonks. After two weeks have passed since the due date, no grades will be changed.

Grading Scheme

Grade	A	A-	B+	B	B-	C+	C	C-	D+	D	D-	F
Score	100	93	90	87	83	80	77	73	70	67	63	60

Note that the score listed on the table for each grade is the upper bound for that grade, e.g. a student will get an A with a score ranging from 100 to 93.

Students Requiring Accommodations

Students with disabilities requesting accommodations should first register with the [Disability Resource Center \(http://www.dso.ufl.edu/drc/\)](http://www.dso.ufl.edu/drc/) (352392-8565) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

Course Evaluation

Approximately half way through the course, a mid-term evaluation will be given to the students. The comments and suggestions provided during the mid-term evaluation will be carefully considered by Dr. Tonks and appropriate changes will be made to the course to address the comments, if possible.

Students are also expected to provide feedback on the quality of instruction at the completion of the course by completing online evaluations at <https://evaluations.ufl.edu> (<https://evaluations.ufl.edu>). Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at <https://evaluations.ufl.edu/results/> (<https://evaluations.ufl.edu/results/.%20>).

University Honesty Policy

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” [The Honor Code](#)

[\(https://www.dso.ufl.edu/sccr/process/student%C2%ADconducthonor%C2%AD%20code/\)](https://www.dso.ufl.edu/sccr/process/student%C2%ADconducthonor%C2%AD%20code/) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TA in this class.

Software Use

All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

Student Privacy

There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see:
