

Interfacial Engineering

EMA 4121

Class Periods: Tuesday, Period 4, 10:40am - 11:40 am; Thursday, Period 4-5, 10:40 pm – 12:35 pm

Location: Tuesdays LIT 0201, Thursdays, LIT 0201

Academic Term: Fall 2021

Instructor

Dr. Brij M. Moudgil

- a. Office location: 205E PS&T Bldg. (Particle Science Bldg.)
- b. Telephone: 352-846-1194
- c. E-Mail: bmoudgil@perc.ufl.edu
- d. Office Hours: TBA

Teaching Assistant:

Mr. Chris Lovenduski

- a. Office location: TBA
- b. Telephone: 609-802-8011
- c. E-Mail: clovenduski@ufl.edu
- d. Office Hours: TBA

Course Description

Correlation of properties, structural and mechanical history, thermal history and service behavior of various interfaces.

Especially, quantitative and conceptual treatment of interfacial forces and phenomena.

Comparison and contrast of liquid and solid interfaces. Consideration of surfactants and polymers, colloids, surface modification, thin films, coatings, and characterization techniques.

Course Prerequisites/Co-Requisites:

EMA 3050, EMA 3066, EMA 3413 or permission of instructor

Course Objectives

Develop an understanding of the role that interfaces play in determining the properties, behavior and processing of material systems.

Materials and Supply Fees

none

Relation to program outcomes (ABET)

Outcome	Coverage*
1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics	High
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors	
3. An ability to communicate effectively with a range of audiences	
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts	
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives	
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions	
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies	Medium

Required Textbooks and Software

- Title: Physics and Chemistry of Interfaces
- Authors: Hans-Jurgen Butt, Karlheinz Graf, Michael Kappl
- Publication Date and Edition: 2013, 3rd edition
- ISBN Number: 978-3-527-41216-7

This course will use Canvas system. All class handouts, reading assignments, homework problem sets, homework solutions, exam solutions, and grades will be available throughout the semester. Course notes developed by the instructor along with any additional reading material assigned will be posted on Canvas.

Recommended Materials

Recommended reference books:

For solid/liquid, liquid/liquid & liquid gas systems

- Terrence Cosgrove, "Colloid Science Principles, Methods and Applications," Blackwell Publishing Co; 2010 (possibly available on- line or in the UF library).
- Georgios Kontogeorgis and Soren Kiil, "Applied Colloid and Surface Chemistry," John Wiley & Sons, 2016. (possibly available on- line or in the UF library).

For solid/solid systems – thin films (Ch. 9 & 10)

- Robert J. Stokes, D Fennell Evans, "Fundamentals of Interfacial Engineering", Wiley-VCH © 1997.

Reference material:

- Other material assigned and/or posted on the Canvas system. Internet sources.

Course Schedule

(Tentative)

Week 1-5: Defining Interfacial Engineering; Surface Forces – van der Waals, Electrostatic, Solvation, Hydration, Steric and Depletion forces. Systems Containing Fluid Interfaces – Surface tension & surface energy, Young-Laplace and Kelvin equations, Contact angle, Nucleation Theory (Textbook Chapters 2, 5.6)

Week 6-10: Charged Interfaces, Electrical Double Layer, Electrokinetic phenomena, Zeta potential, Surfactants (Textbook Chapters 4, 11)

Week 11-15: Solid surfaces, Adsorption, Surface modification (Textbook Chapters 7,8,9)

Attendance Policy, Class Expectations, and Make-up Policy

Attendance in class is important. Lecture attendance is recommended but may not be recorded. Material covered in class will follow the recommended book chapters closely in some areas and will deviate from it in others; in a few cases class notes will be used exclusively. In addition, there may be assignments to be completed in class. Those students not in class for any reason are responsible for the material covered in class, and the homework assigned.

Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies. Click here to read the university attendance policies:

<https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/>

Correct behavior in class is always important. Making noise, talking, reading the paper, leaving your cell phone on, leaving early or arriving late can be very distracting. Occasionally, your schedule will demand that you arrive late or leave early - in these cases please minimize class disruption.

Homework will be assigned and is due on the dates indicated on the assignment; no late homework will be accepted. Assignments submitted after the solutions are posted will receive a zero grade. Learning from and teaching others is encouraged, but all turned in problem solutions must be your own work. All homework problems and solutions may be downloaded from the Canvas site. In order to enhance the ability to acquire and apply new knowledge using appropriate learning strategies, a team project will be assigned. Details of team project will be provided in class and posted on Canvas.

Exams: will closely follow the material covered in class, in your assigned reading and in homework problems. These will be closed book and without notes and will be given during regular class periods, or at prescheduled times. Students will be responsible for preparing a one-page (8.5 X 11" both sides) list of equation/formulae/constants etc. that will be allowed for exam purposes and must be submitted via course Canvas site immediately after the exam. No descriptive materials or definitions will be allowed on the list of formulae etc.

Requests for re-grading of exams must be made within one week after a graded exam/assignment has been returned.

Exact dates for exams will be announced in the class and posted on the Canvas system, a tentative schedule is as follows: Exam 1 – week of Sept. 20; Exam 2 – week of Oct. 25; Exam 3 – week of Nov. 29.

Final Exam: There will be no final exam.

Make-up Exam Policy: If you miss an exam through documented illness or for an excused absence, you may take a make-up exam. If you miss an exam for any other reason, you will receive zero points on that exam.

Evaluation of Grades

Assignment	Total Points	Percentage of Final Grade
Homework Sets (6-7)	50 each	10%
Exams (3)	100 each	(25% each) 75%

Team Project	100	15%
TOTAL	-	100%

Grading Policy

This class will be graded on the following scale:

92-100 A (GPA points = 4.0)

88-91 A- (3.67)

84-87 B+ (3.33)

80-83 B (3.0)

76-79 B- (2.67)

72-75 C+ (2.33)

68-71 C (2.0)

65-67 C- (1.67)

62-64 D+ (1.33)

59-61 D (1.0)

56-58 D- (0.67)

< 56 E (0)

More information on UF grading policy may be found at:

<https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>

Students Requiring Accommodations

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting <https://disability.ufl.edu/students/get-started/>. It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

Course Evaluation

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

In-Class Recording

Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.

Online Course Recording

Our class sessions may be audio visually recorded for students in the class to refer back and for enrolled students who are unable to attend live. Students who participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your profile or video image recorded, be sure to keep your camera off and do not use a profile image. Likewise, students who un-mute during class and participate orally are agreeing to have their voices recorded. If you are not willing to consent to have your voice recorded during class, you will need to keep your mute button activated and communicate exclusively using the "chat" feature, which allows students to type questions and comments live. The chat will not be recorded or shared. As in all courses, unauthorized recording and unauthorized sharing of recorded materials is prohibited.

University Honesty Policy

UF students are bound by The Honor Pledge which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment." The Honor Code (<https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/>) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

Commitment to a Safe and Inclusive Learning Environment

The Herbert Wertheim College of Engineering values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. It is expected that every person in this class will treat one another with dignity and respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture.

If you feel like your performance in class is being impacted by discrimination or harassment of any kind, please contact your instructor or any of the following:

- Your academic advisor or Graduate Program Coordinator
- Jennifer Napo, Director of Human Resources, 352-392-0904, jpennacc@ufl.edu
- Curtis Taylor, Associate Dean of Student Affairs, 352-392-2177, taylor@eng.ufl.edu

- Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, nishida@eng.ufl.edu

Software Use

All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

Student Privacy

There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: <https://registrar.ufl.edu/ferpa.html>

Campus Resources:

Health and Wellness

- You are expected to wear approved face coverings at all times during class and within buildings even if you are vaccinated. Please continue to follow healthy habits, including best practices like frequent hand washing. Following these practices is our responsibility as Gators.
- If you are sick, stay home and self-quarantine. Please visit the UF Health Screen, Test & Protect website about next steps, retake the questionnaire and schedule your test for no sooner than 24 hours after your symptoms began. Please call your primary care provider if you are ill and need immediate care or the UF Student Health Care Center at 352-392-1161 (or email covid@shcc.ufl.edu) to be evaluated for testing and to receive further instructions about returning to campus. UF Health Screen, Test & Protect offers guidance when you are sick, have been exposed to someone who has tested positive or have tested positive yourself. Visit the [UF Health Screen, Test & Protect website](#) for more information.

U Matter, We Care:

Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

Counseling and Wellness Center: <http://www.counseling.ufl.edu/cwc>, and 392-1575; and

the University Police Department: 392-1111 or 9-1-1 for emergencies.

Sexual Discrimination, Harassment, Assault, or Violence

If you or a friend has been subjected to sexual discrimination, sexual harassment, sexual assault, or violence contact the [Office of Title IX Compliance](#), located at Yon Hall Room 427, 1908 Stadium Road, (352) 273-1094, title-ix@ufl.edu

Sexual Assault Recovery Services (SARS)

Student Health Care Center, 392-1161.

University Police Department at 392-1111 (or 9-1-1 for emergencies), or

<http://www.police.ufl.edu/>.

Academic Resources

E-learning technical support, 352-392-4357 (select option 2) or e-mail to Learning-support@ufl.edu. <https://lss.at.ufl.edu/help.shtml>.
