Instructor:
Victoria M Miller (she/her/hers)
victoria.miller@ufl.edu (but please contact through Discord for questions related to course content)
Office Hours: TBD by class poll, will be posted on Canvas

Teaching Assistant/Peer Mentor/Supervised Teaching Student:
Please contact through Discord
- Justin Norkett, jnorkett@ufl.edu
  Office Hours: TBD by class poll, will be posted on Discord

Course Description
Statistical approach for materials research, basic and relevant statistical concepts, error analyses, factorial matrices, reducing the variance, nested designs and sampling plans, mixture designs, optimization technology, response surface method and Taguchi.

Course Pre-Requisites / Co-Requisites
Corequisite: EMA3010

Course Objectives
Students will develop fluency with multiple methods of statistical analysis and experimental design. Students will become comfortable with data methods in materials science: designing experiments to generate data, using code to manipulate and perform statistical tests on data, and using data to draw valid conclusions about a scientific question.

Relation to Program Outcomes (ABET):

<table>
<thead>
<tr>
<th>Outcome</th>
<th>Coverage</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics</td>
<td>Low</td>
</tr>
<tr>
<td>2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors</td>
<td>High</td>
</tr>
<tr>
<td>3. An ability to communicate effectively with a range of audiences</td>
<td>Low</td>
</tr>
<tr>
<td>4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts</td>
<td></td>
</tr>
<tr>
<td>5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives</td>
<td></td>
</tr>
</tbody>
</table>
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions

7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies

### Required Textbooks and Software

- Design and Analysis of Experiments
  - Douglas C. Montgomery
  - 7th Edition, Wiley (Other recent editions are also acceptable.)
  - 9780470169

### Recommended Materials

- An Introduction to Error Analysis: The Study of Uncertainties in Physical Measurements
  - John R. Taylor
  - 2nd edition, 1996
  - 093570275X

MATLAB is used extensively in this course. MATLAB and all necessary toolboxes are available free for your use through UF Apps, but in previous years many students have complained about the reliability of UF Apps. If you desire, you can purchase a MATLAB license for yourself (including the important toolboxes) for $99.

### Important Dates

- Week of Feb. 28: Take home midterm (exact date flexible)

### Course Schedule

The course schedule is subject to change, but will be kept up to date on Canvas. The following topics will be covered:

- Basic coding (2 weeks)(Instructor Notes)
  - Includes introduction to linear algebra
  - Includes file I/O and data manipulation
  - Includes data plotting
- Scientific method (Approx 1 lecture) (Instructor Notes)
- Basic statistics (3 weeks)(Chapter 2)
- ANOVA (2 weeks)(Chapter 3)
- Design of Experiments with several factors (2.5 weeks)(Pulling from several chapters, specific book sections listed on Canvas)
- Fitting data to models: classic methods (1.5 weeks)(Chapter 10)
- Querying databases and introduction to machine learning (2 weeks)(Instructor notes and nanoHUB)
- Statistical software, e.g. JMP (1 week)(Instructor notes)

### In-Class Recording

Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.
**Attendance Policy, Class Expectations, and Make-Up Policy**

- **Discord**
  - This term we will be using Discord for class discussion. Public Discord question will allow you to get help fast and efficiently from classmates, the TA, and myself. Rather than emailing (or DMing) questions to me or the TA, please post your questions on Discord.

- **Homework**
  - Homework will be assigned approximately weekly.
  - Late assignments will be accepted until homework solutions are posted. Students will lose 10% of the total points each day or portion thereof that the assignment is late.

- **Attendance and Absences**
  - You are not required to attend class in person because it will be recorded via zoom; however you must either attend regularly in person or keep up to date by watching the recorded lectures. Please come to the first class period or sign into zoom live so we can schedule office hours and handle other logistical stuff.
  - For some sections of the class (e.g. MATLAB bootcamp) there will be additional recordings posted online in advance, then the in class section will be used for practice and “follow along” examples. It is expected that students watch the recordings in advance if they do not know the material already; the in-class sections will not be a repeat of the recordings.
  - If you are sick (with covid or anything else) please let me know! I can work with you if I know, but I’m not psychic.
  - Verification of an absence may be required in extreme circumstances, e.g. missing a midterm exam without notice. Excused absences must be consistent with university policies in the undergraduate catalog (https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx) and require appropriate documentation.

- **“Quizzes”**
  - Unannounced quizzes (approx. 10 minutes duration) will be posted to Canvas periodically. They will be primarily graded for completion, and I will go over the answers in class.
  - Students can make up quizzes with the standard late policy, no questions asked.
  - The quizzes are meant to both force you to keep current with the lectures and to show me what concepts the class is struggling with.

- **Extra Credit**
  - Students that make a useful demo that I can use in class will receive up to five extra credit points (based on demo quality) to be assigned to the lowest homework grade. “Standard” projects will receive 3 points, with additional points awarded for exceptional work. In order to receive credit, student must provide a typed description of the class concept being demonstrated (minimum of a half page single spaced). Within reason, there is no maximum number of demos a student can submit. Extra credit will be accepted until the last day of classes. A maximum of one demo per week per student will be accepted.
  - If you’ve read this far, there’s another way to get extra credit: you need to send me an email containing two things. First, you need to include a photo of a cute animal (preferably one that you know). Second, you need to include a link to the most interesting matlab function you’ve found and a few words about why you think it’s interesting. Bonus points if I learn something too.
  - Additional opportunities for extra credit may be announced during lecture.

- **Be Nice!**
  - Incivility toward students, staff, or faculty will not be tolerated.
  - If you’d like me to call you by a different name, different pronouns, etc. just let me know!
## Evaluation of Grades

More information on UF grading policy may be found at: [https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx](https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx)

## Students Requiring Accommodations

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting [https://disability.ufl.edu/students/get-started/](https://disability.ufl.edu/students/get-started/). It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

## Course Evaluation

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at [https://gatorevals.aa.ufl.edu/students/](https://gatorevals.aa.ufl.edu/students/). Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via [https://ufl.bluera.com/ufl/](https://ufl.bluera.com/ufl/). Summaries of course evaluation results are available to students at [https://gatorevals.aa.ufl.edu/public-results/](https://gatorevals.aa.ufl.edu/public-results/).

## University Honesty Policy

UF students are bound by The Honor Pledge which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code ([https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/](https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/)) specifies a number of...
behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

**Commitment to a Safe and Inclusive Learning Environment**
The Herbert Wertheim College of Engineering values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. It is expected that every person in this class will treat one another with dignity and respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture.

If you feel like your performance in class is being impacted by discrimination or harassment of any kind, please contact your instructor or any of the following:
- Your academic advisor or Graduate Program Coordinator
- Robin Bielling, Director of Human Resources, 352-392-0903, rbielling@eng.ufl.edu
- Curtis Taylor, Associate Dean of Student Affairs, 352-392-2177, taylor@eng.ufl.edu
- Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, nishida@eng.ufl.edu

**Software Use**
All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

**Student Privacy**
There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: [https://registrar.ufl.edu/ferpa.html](https://registrar.ufl.edu/ferpa.html)

**Campus Resources:**

**Health and Wellness**

**U Matter, We Care:**
Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

**Counseling and Wellness Center:** [http://www.counseling.ufl.edu/cwc](http://www.counseling.ufl.edu/cwc) and 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

**Sexual Discrimination, Harassment, Assault, or Violence**
If you or a friend has been subjected to sexual discrimination, sexual harassment, sexual assault, or violence contact the Office of Title IX Compliance, located at Yon Hall Room 427, 1908 Stadium Road, (352) 273-1094, title-ix@ufl.edu

**Sexual Assault Recovery Services (SARS)**
Student Health Care Center, 392-1161.

**University Police Department** at 392-1111 (or 9-1-1 for emergencies), or [http://www.police.ufl.edu/](http://www.police.ufl.edu/)
COVID-19

- You are expected to wear approved face coverings at all times during class and within buildings even if you are vaccinated.
- If you are sick, stay home and self-quarantine. Please visit the UF Health Screen, Test & Protect website about next steps, retake the questionnaire and schedule your test for no sooner than 24 hours after your symptoms began. Please call your primary care provider if you are ill and need immediate care or the UF Student Health Care Center at 352-392-1161 (or email covid@shcc.ufl.edu) to be evaluated for testing and to receive further instructions about returning to campus.
- If you are withheld from campus by the Department of Health through Screen, Test & Protect, you are not permitted to use any on campus facilities. Students attempting to attend campus activities when withheld from campus will be referred to the Dean of Students Office.
- UF Health Screen, Test & Protect offers guidance when you are sick, have been exposed to someone who has tested positive or have tested positive yourself. Visit the UF Health Screen, Test & Protect website for more information.
- Please continue to follow healthy habits, including best practices like frequent hand washing. Following these practices is our responsibility as Gators.
