Special Topics (Magnetic Materials)
EMA 6938 (Sections IMM1, IMM2, IMM3, IMM4)/ EMA 4935 (Section CAMP)

Class Periods:  EMA 6938 – Section IMM1 – M, W, F Period 4 (10:40 am – 11:30 am),
Sections IMM2, IMM3, IMM4 – 100% Online
EMA 4935 – Section CAMP – M, W, F Period 4 (10:40 am – 11:30 am)

Location:  CSE E122
Academic Term:  Fall 2022

Instructor:  
Aroba Saleem
aroba.saleem@ufl.edu
352-294-1789
Office Hours:  TBD

No Teaching Assistant

Course Description
This course covers the basics of magnetic quantities, magnetic devices, and materials used in practice. This course will cover theories of magnetism, ferromagnetism, paramagnetism and diamagnetism, magnetic domains and industry applications of magnetic materials. EMA 6938 is a 3-credit course for graduate students, whereas EMA 4935 is an undergraduate course for up to 3 credits.

Course Pre-Requisites / Co-Requisites
N/A

Course Objectives
This course introduces students to magnetic materials and their applications. It is directed toward students in electrical engineering, physics, materials science, and other areas where knowledge of magnetic materials will be useful.

Materials and Supply Fees
N/A

Relation to Program Outcomes (ABET):
The table below is an example. Please consult with your department’s ABET coordinator when filling this out.

<table>
<thead>
<tr>
<th>Outcome</th>
<th>Coverage</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics</td>
<td>High</td>
</tr>
<tr>
<td>2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors</td>
<td></td>
</tr>
<tr>
<td>3. An ability to communicate effectively with a range of audiences</td>
<td>Medium</td>
</tr>
<tr>
<td>4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts</td>
<td></td>
</tr>
<tr>
<td>5. An ability to function effectively on a team whose members together provide leadership, create a</td>
<td></td>
</tr>
</tbody>
</table>
collaborative and inclusive environment, establish goals, plan tasks, and meet objectives

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions</td>
<td>Medium</td>
</tr>
<tr>
<td>7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies</td>
<td>High</td>
</tr>
</tbody>
</table>

Coverage is given as high, medium, or low. An empty box indicates that this outcome is not covered or assessed in the course.

**Required Textbooks and Software**

- Introduction to Magnetic Materials
- B. D. Cullity, C. D. Graham
- Second edition
- 9780471477419

**Course Schedule**

Below is the intended/tentative schedule of classes and exams.

- Week 1: Introduction
- Week 2: Diamagnetism and Paramagnetism
- Week 3: Ferromagnetism
- Week 4: Ferromagnetism
- Week 5: Magnetic Anisotropy
- Week 6: Magnetostriction and the Effects of Stress
- Week 7: Magnetostriction and the Effects of Stress
- Week 8: Checkpoint 1
- Week 9: Domains and the Magnetization Process
- Week 10: Domains and the Magnetization Process
- Week 11: Domains and the Magnetization Process
- Week 12: Induced Magnetic Anisotropy
- Week 13: Checkpoint 2
- Week 14: Discussion/student presentations
- Week 15: Discussion/student presentations

The instructor reserves the right to make changes to the syllabus as needed. Any changes will be clearly announced on CANVAS and in class.

**Attendance Policy, Class Expectations, and Make-Up Policy**

Attendance is required and will be recorded. Students who miss more than 3 classes without prior notice will not be allowed to take the exam. Arrival on time is expected. Turn off all telephones before entering the classroom. Excused absences must be consistent with university policies in the university catalog and require appropriate documentation.

Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies. Click here to read the university attendance policies:

https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/

**Course Format**

This course uses a **team-based learning approach** that uses pre-class preparation materials (including reading assignments) and active learning activities during class time. Your completion and involvement in all these aspects of the course are critical to success.

**Pre-Class Preparation Materials**

*Reading assignments* will help you prepare for the active learning activities and are another critical aspect of learning the course content.

---

*Magnetic Materials, EMA 6938, EMA 4935*
*Aroba Saleem, Fall 2022*
Active Learning Activities
There will be group discussions and individual and group work on In-Class Exercises. Students are encouraged to ask questions and participate in class discussions and activities.

*In-Class Exercises (ICE)* will be given during the live classes. These exercises will be counted for credit.

Homework

Homework problems for each module will be assigned, submitted, and graded through the E-Learning website. Group discussions towards homework solving and teamwork are encouraged but all answers that are turned in should be the result of your own work. In addition, you should keep records of the work leading to your answers throughout the semester, as they will be randomly requested for grading clarification. Homework will count as 20% of the total grade.

Checkpoints

There will be two checkpoints to evaluate the progress of students during this semester each worth 20% of the grade. These can be quizzes, presentations, data analysis or papers.

Project

Each student will choose a topic from a pool of topics provided in the beginning of the semester and conduct a thorough literature review and provide their insights. The project progress will be evaluated throughout the semester. Graduate students need to submit a term paper and present their work in class. Undergraduate students only need to present their work in the class.

Course Communication

E-Learning will be the primary avenue for communication and course management. All announcements for the course will be made using the announcement system on the E-Learning site. Make sure and change your E-Learning settings so that you get notifications about announcements, assignment changes, etc. in a timely manner. I prefer to be contacted via CANVAS.

More information on UF grading policy may be found at: [https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx](https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx)

**Students Requiring Accommodations**

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting [https://disability.ufl.edu/students/get-started/](https://disability.ufl.edu/students/get-started/). It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

**Course Evaluation**

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at [https://gatorevals.aa.ufl.edu/students/](https://gatorevals.aa.ufl.edu/students/). Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via [https://ufl.bluer.ca/ufl/](https://ufl.bluer.ca/ufl/). Summaries of course evaluation results are available to students at [https://gatorevals.aa.ufl.edu/public-results/](https://gatorevals.aa.ufl.edu/public-results/).

**In-Class Recording**

Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.
University Honesty Policy
UF students are bound by The Honor Pledge which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code [https://sccr.dso.ufl.edu/process/student-conduct-code/] specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

Commitment to a Safe and Inclusive Learning Environment
The Herbert Wertheim College of Engineering values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. It is expected that every person in this class will treat one another with dignity and respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture.

If you feel like your performance in class is being impacted by discrimination or harassment of any kind, please contact your instructor or any of the following:
• Your academic advisor or Graduate Program Coordinator
• Jennifer Nappo, Director of Human Resources, 352-392-0904, jpenacc@ufl.edu
• Curtis Taylor, Associate Dean of Student Affairs, 352-392-2177, taylor@eng.ufl.edu
• Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, nishida@eng.ufl.edu

Software Use
All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

Student Privacy
There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: https://registrar.ufl.edu/ferpa.html
